Estimated population 1.1 million

One of the last remaining absolute monarchies in the world Swaziland is ruled by the eccentric and authoritarian King Mswati III. A landlocked country surrounded by South Africa and Mozambique it has a GDP per capita of \$2,300 and is ranked 146th in Human Development. Despite his country's poverty King Mswati spends large sums on self-aggrandisement including a fleet of luxury cars and a series of opulent mansions for each of his numerous wives. The country has the second highest incidence of HIV-AIDS in the world. Female life expectancy is 35 and male 33.
